*Water/Wastewater Productivity Software Since 1988
(order with credit card or prepay for only \$95)*

Powerful Water/Wastewater Design and Operations Software for Windows

- 32 MicroSoft Excel spreadsheets especially designed for the water and wastewater professional.
- Spreadsheet templates created for specific design or operations calculations and reporting.
- Designed to allow the novice computer spreadsheet user to double click, enter data and print results.
- Designed for the experienced computer spreadsheet user to combine into complex reports or models.
- Assists less experienced personnel in performing calculations for review by senior personnel.
- Helps reduce errors and improve efficiency by standardizing design and operation calculations.
- Saves time and increases productivity by providing reference information, component selection, and detailed calculation and report generation capabilities at your fingertips.

Water / Wastewater Professional Spreadsheet Library

Product No. 0901

Price: \$195.00 (\$95.00 prepaid)

Powerful spreadsheet library includes 32 templates that are useful tools for the system manager, operator, or engineer. The package includes a 185 page User's Manual on the CD. The 32 templates address:

- Water and wastewater flow determination
- Pump and piping hydraulics
- Gravity sewer and channel flows and velocity
- Wetwell size determination
- Air piping size and pressure drop
- Wiring and motor controls sizing
- Financial calculations
- Infiltration and inflow analysis aids
- Weir head and flow tables
- Chemical feedrates and batching
- Unit conversions
- Centrifugal pump curve analysis
- Pump cycle time calculation
- Water hammer surge pressure
- Fire Hydrant testing and flow calculations
- Diurnal demand determination
- Modeling nodal flow determination
- Piping friction factor determination
- Pump power use and efficiency calculations
- Hydro-pneumatic tank calculations
- Disinfectant CT table interpolation
- Capital improvements planning aids
- Value engineering aids

See our web site, www.TimmonsSoftware.com for a description of each spreadsheet or call or e-mail with any questions. Place your order today.

The software is provided on CD-ROM. The library has a setup program that sets up its own subdirectory (selectable at installation) and Windows Start program group. The program group contains a detailed user's manual in Adobe PDF format and warranty information. Access to the individual spreadsheets is as simple as clicking on the desired spreadsheet's icon or you may load from the spreadsheet's file open commands.

USE INSTRUCTIONS ARE INCLUDED ON EACH SPREADSHEET. (Technical Information and Tips also)
